WEB DEVELOPMENT EXPERIENCE

DigitalCrafts   Atlanta, GA
16-Week Programming Bootcamp   Feb. 2016 – Present

- Project-based curriculum that focuses on JavaScript/ MEAN Stack and PHP/ LAMP Stack.
  1. DC-Roasters: E-Commerce site using MongoDB, Express, Angular, and Node allowing users to order coffee. Functionality includes user authentication, personalized orders, and payment processing.
  2. Interactive Map: Pulls from World Bank API and Wikipedia to dynamically filter and display countries that meet multiple search criterion. Relies on Angular routing and views.
  3. Electoral Map: Interactive electoral map built using SVG's and AngularJS.
  4. Blackjack: Uses JavaScript, JQuery, Bootstrap, and CSS to build one-player game against the dealer.
  5. Tic-Tac-Toe: Built with native JavaScript. Added functionality to increase the computer's intelligence.
  6. Chinese404: Reddit clone for students of Chinese. Built with PHP and MySQL.
